

BATA-MIAOU

Ages: 3-6 years

Number of players: 2-4

Contents: 36 cards

Object: To win all the cards.

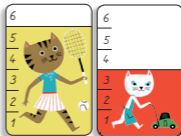

This game of War has been especially designed for young children.

Game Rules: Deal out all the cards. The players each assemble their cards into a deck, which they place face down in front of them.

The players then all simultaneously turn over the top card from their deck. Whoever played the biggest cat wins the trick. Sometimes, two players will turn up cards showing cats of the same size. In that case, they have to say "Bata-miaou". The players involved each lay another card face down on top of their first card, and then a third card face up. The player whose last card features the biggest cat wins all the cards in the trick.

Children who do not yet know how to count can easily tell who has won the trick, by comparing the size of the cats.

Warning. Small parts.
